

OXFORDSHIRE
COUNTY COUNCIL

0-19 Children and Young People Public Health Service

Dear Parent/Carer,

Height and weight checks for children in reception and year 6 – Tuesday 3rd February 2026

Every year in England, school children in reception and year 6 have their height and weight checked at school. This is called the National Child Measurement Programme (NCMP). The checks are carried out by registered school nurses or trained health care providers. Children are measured fully clothed, except for their coats and shoes, in a private space away from other pupils.

Why do we need to measure children?

Children's height and weight measurements are collected to build an understanding of how children are growing. The information from the NCMP is used by local councils and the NHS to plan the provision of health and leisure services for families to promote healthier growth in children.

In most areas, parents receive their child's measurement data, because this can be useful information about their child's growth. It also provides an opportunity to offer support to parents where required.

Your child's class will take part in this year's programme.

What information is collected and why

Your child's height, weight, age, sex, and date of birth are collected to calculate their weight category (also known as child body mass index).

Your child's ethnicity and address are collected to monitor differences in child growth and weight between ethnic groups, where children live and their backgrounds.

Your child's name, date of birth and NHS number are collected to link their measurements from reception and year 6 to other information from health and education records held by NHS England, the Department of Health and Social Care and the Department for Education, where it is legal to do so.

Information about how personal information and data is collected and stored

You can read more about how the Department of Health and Social Care collects, stores and uses your child's information and data in the [National Child Measurement Programme privacy notice](#).

You can read more about how NHS England collects, stores and uses your child's information and data at [National Child Measurement Programme \(NCMP\): GDPR information](#).

At the NHS England [National Child Measurement Programme webpage](#) you can read more about:

- taking part in the programme
- how your data is collected

- how your data is used

You can read more about how Oxford Health NHS Foundation Trust collects, stores and uses your child's information at and use information can be found at www.oxfordhealth.nhs.uk/privacy/.

If your child's measurements fall outside the healthy range, we may inform your GP.

If your child is above the healthy measurement range, Oxfordshire County Council is dedicated to making our communities healthier for everyone and have partnered with Maximus to deliver their popular Beezee in Oxfordshire, healthy lifestyle programmes. As part of this collaboration and under public interest, if your child is above the healthy measurement range, we share their NCMP data with Maximus. This data allows the Maximus NCMP Coordinators to identify and contact families who may benefit from joining the Beezee programmes. All personal information collected will be kept safe and is protected by law. For further information on the use of personal data by Maximus, please refer to <https://www.maximusuk.co.uk/privacy-policy>

How you can withdraw your child from participating in the NCMP

If you are happy for your child to be measured, you do not need to do anything.

If you do not want your child's height and weight to be measured, or your child has a medical condition that affects their height or weight, please let us know using the contact details provided below.

Your contact from the school health nurse team is:

Gemma McCarthy Contact Number: 07717 701032

Children will not be made to take part on the day if they do not want to.

How is a child's mental health and wellbeing considered in the NCMP

The wellbeing of children and families is very important to the programme. Measurements are conducted in a sensitive way, in private and away from other children. Individual feedback is not shared with your child or their school, it is your choice to share or not share the information with your child.

School Screener Portal– how to access your child's measurements

The weight and height information is shared only with you, through a parent/carer feedback letter accessible through our parent portal School Screener.

To access your child's screening results, please create an account for School Screener by clicking the link below:

 [School Screener - Create an account](#)

This is the **only way** you will receive your child's screening information.

 A helpful video is available on the site to guide you through the account creation process.

Or click on the link to watch the video now <https://youtu.be/4F3cL0IQ4G8>

Please note if you have already created an account, you can log in with your previous details and add a child to your account [How do I add another child?](#)

If you need further assistance or have any questions. Please email schoolscreeningteam@oxfordhealth.nhs.uk

If you are concerned about your child's growth, weight, body image or eating patterns, seek further support from a school nurse or GP or Maximus, a provider of healthy lifestyle programmes.

Maximus – Beezee healthy lifestyle programme

More information about healthy lifestyle programmes can be found here: <https://oxf.maximusuk.co.uk/>

Further information

You can find information and fun ideas to help your kids stay healthy at the NHS Better Health: healthier families webpage [Easy ways to eat well and move more.](#)

Another way to help maintain a balanced diet and physical activity for your family is the NHS Healthy Steps email programme. Sign up for the 8-week Healthy Steps emails and you will be sent lots of low-cost easy tips, fun games, healthy swaps and tasty recipes on a budget. You can sign up to NHS [Healthy Steps - step this way.](#)

You can find further information about the NCMP at [The National Child Measurement Programme](#) NHS webpage.

Yours faithfully,

Dr Ansaf Azhar
Director of Public Health
Oxfordshire County Council
