

Youth Wellbeing Club

The Youth Wellbeing Club has been created to help young people feel more confident, connected and supported especially as they approach the transition to secondary school next year. It will run from November to July with opportunities to join or leave at each half term.

Please use the form below to register your interest to book your child onto the Youth Wellbeing Club from **November 2nd**. The club will run at The Oxfordshire Museum every **Monday** after school from **3:30pm-5:30pm** during term time.

Based at Oxfordshire Museum in Woodstock, this free programme offers a welcoming space to meet other young people, make friends and explore creative activities inspired by the museum's collections, gardens and historic surroundings. Each session will include:

- An opportunity to explore the museum
- The chance to take part in a creative activity
- A snack on arrival
- Dinner before they leave such as pizza

All activities will be delivered by experienced creative practitioners in partnership with Oxfordshire Museum Service. Young people will have opportunities to help shape the programme, ensuring that activities reflect their interests and needs.

Please note spaces are limited and we will email to confirm a spot on the course.

If you think your child would benefit from taking part you can register your interest here:
