

The Tackley Times

Fun Fact

A single cloud can weigh around a million tonnes.

What's Up In Tackley

Every October our village does a Halloween Trail. To do the trail you go to the village shop and buy a map, then follow the map around the spooky houses. Some houses have a clue to a puzzle. At the end you must solve it. Do you think you'll do the Halloween Trail?

A Big Well Done

Hello everyone, we would like to say a congratulations to all the people who took part in the Tackley £10 challenge to raise money for the Village Hall. We had lots of amazing businesses like: baking cakes, football sweepstakes, Princess photo booths and so much more. Everyone did a very good job

and together we all raised lots of money.

Amazing Humans

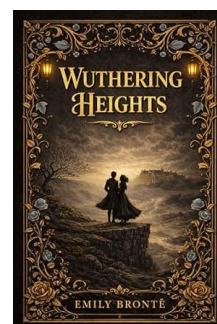

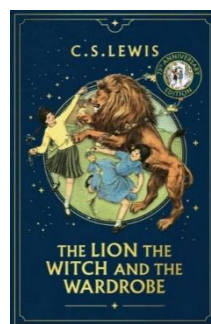

Born in 1926 January 13th, Thomas Michael Bond was an English author, best known for his works on the Paddington Bear books. Growing up he always had a love for trains. For a while Michael was in the army, in fact that was when he wrote his first short story for a magazine called "The London Opinion". Published in 1958, his first book was "A Bear Called Paddington". Michael also worked as a camera man and television producer at the BBC for many years, alongside writing. Sadly he died in the year 2017, which is nine years ago now, but his books will be treasured forever.

Interesting Interviews

We asked five of our teachers what their favourite books were and why. Mrs Barnett did not specify a favourite book, but she did say that her favourite genre was murder mystery, crime and most nightmarish books. Mrs Wistow's favourite book is *The Lion, The Witch And The Wardrobe* because it was one of the first books she ever read on her own and she quotes she can still see the images she imagined as a girl today. Mrs Hawes said hers was *Wuthering Heights* because she used the book in a G.C.S.E. exam and found it very dramatic. Like Mrs Hawes, Miss Malone also likes the book *Wuthering Heights* for the same reason and said she is very excited because her daughter has started reading it and loves it. And finally, Mrs Lawrence loves the *Little Miss*

and Mr Men books because they are fun, colourful and silly.

MR. CLEVER

Positive Poem

R A I N B O W S

Rain falls and meets the sun.
A sky full of colours appear as one.
I can see them from far and near.
Now to watch as they disappear.
Behind the colours is a pot of gold.
One day I will find it before I get old.

Will the rainbow visit again?

Someday, but who knows where or when...

by Grace

And if you would like your own positive poem to be in the Tackley Times, then send your poem to either Tilly or Alfie. Next Edition out 2nd November!
